

consensusenergy
efficiency and savings together

EFFICIENCY & SAVINGS TOGETHER

Consensus Energy is an environmental services company located in Atlanta, Georgia, that designs, installs, maintains, and finances retrofit and upgrade projects to improve the energy efficiency of buildings and facilities.

WHY DO COMPANIES HIRE US?

We lower our clients' electricity and water bills while improving system-wide reliability. Our system modifications are also proven to lower maintenance costs and extend the longevity of equipment. We offer a variety of financing options that ensure positive cash flow from day one.

“This is the level of detail I wish all of our vendors submitted with their proposed projects.”

- Facility Manager, St Louis, MO

SERVICE OFFERINGS

Facility-Wide Energy Audits

LED Lighting Retrofits

HVAC Improvements

Water Conservation Projects

Energy Management Systems

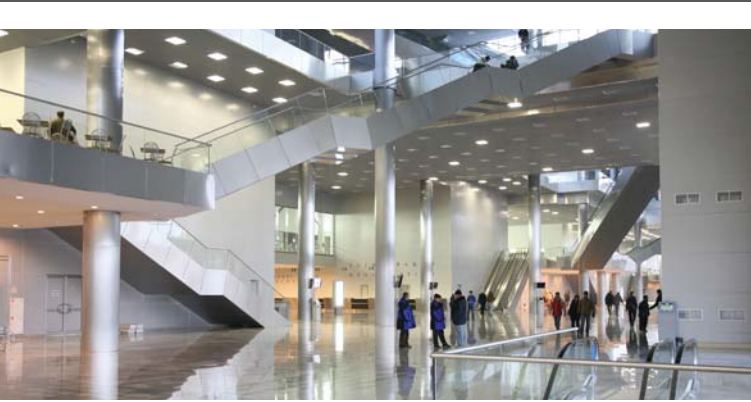

Motor Load Balancing & Reactive Power Mitigation

Tax and Rebate Optimization

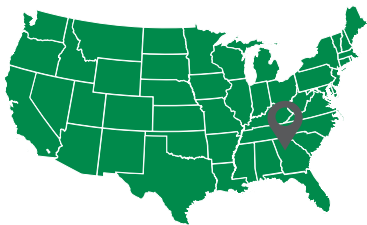

WHY WE'RE DIFFERENT

Consensus Energy does not represent any particular equipment manufacturer. We remain “equipment agnostic” and instead focus on saving our clients money! We remain involved with projects after their installation to ensure the system is performing as promised. With over 50 years of combined industry experience, Consensus Energy strives to be a trusted adviser and client advocate in improving mechanical efficiencies.

WHERE WE SERVICE

We are headquartered in Atlanta, Georgia, but have clients throughout the United States.

CASE STUDY

We helped a municipal government in Georgia lessen electricity costs by 70% without committing capital to the project! By sharing the savings that the retrofits generated, our client enjoyed superior lighting, better safety, and lower maintenance and utility costs without having to put any money down.
