

About Us

Consensus Energy is an environmental services company located in Atlanta, Georgia, that designs, installs, maintains, and finances retrofit and upgrade projects to improve the energy efficiency of buildings and facilities.

“Consensus Energy provided a clear explanation of all energy related savings at the building throughout the project.”

- Chief Operating Officer, UTMG

Challenge

University of Tennessee Medical Group is a provider of specialized medical services servicing the Memphis metropolitan community. The University of Tennessee Medical Group building in Memphis, Tennessee wanted to lower their electrical costs associated with their massive HVAC system.

Solution

Consensus Energy applied an evaporative cooling technology to four 100-ton roof top units and installed a new energy management system to better monitor the controls. The system was installed on a “shared savings” basis -- no capital was committed to initiate the project.

Results

Over three years, Consensus Energy has saved the client 1,174,328 kWh, resulting in \$106,862 in energy related savings!
